Location: Seattle, WA, USA

## PROFESSIONAL SUMMARY

Senior .NET Developer with over 12 years of experience designing and developing enterprise-level applications using Microsoft technologies. Proven track record of leading technical teams, architecting scalable solutions, and delivering high-quality software products. Expertise in microservices architecture, cloud computing (Azure), and modern .NET frameworks. Strong background in fintech and e-commerce domains.

## TECHNICAL SKILLS

**Languages:** C#, .NET Core, .NET Framework, SQL, TypeScript, JavaScript

**Frameworks & Libraries:** .NET 6/7/8, ASP.NET Core, Entity Framework Core, Dapper

**Architecture:** Microservices, RESTful APIs, Event-Driven Architecture, Domain-Driven Design

**Cloud & DevOps:** Microsoft Azure (App Services, Functions, Service Bus, Cosmos DB), Docker, Kubernetes

**Databases:** SQL Server, PostgreSQL, MongoDB, Redis

**Tools & Technologies:** Git, Azure DevOps, CI/CD, RabbitMQ, SignalR, gRPC

## PROFESSIONAL EXPERIENCE

### Solution Architect / Senior .NET Developer

[TechFinance Solutions Inc.](#) | Seattle, WA

January 2020 - Present (4+ years)

Led architecture and development of a cloud-native fintech platform serving 500K+ users. Designed microservices architecture using .NET 6/7, Azure services, and event-driven patterns. Managed a team of 8 developers, established coding standards, and implemented CI/CD pipelines.

- Architected and implemented microservices platform processing 10M+ transactions daily
- Designed scalable API gateway handling 50K+ requests per minute using Azure API Management
- Led migration from monolithic .NET Framework application to cloud-native microservices
- Implemented event-driven architecture using Azure Service Bus, reducing system coupling by 60%
- Established DevOps practices, reducing deployment time from 4 hours to 15 minutes
- Mentored junior developers and conducted technical interviews for team expansion

### Senior .NET Developer

[E-Commerce Dynamics LLC](#) | Remote

March 2016 - December 2019 (3 years 10 months)

Developed and maintained high-traffic e-commerce platform using ASP.NET Core and Azure. Focused on performance optimization, scalability, and integration with third-party services.

- Developed RESTful APIs serving 1M+ daily requests with 99.9% uptime

- Optimized database queries and implemented caching strategies, improving response time by 40%
- Integrated payment gateways (Stripe, PayPal) and order management systems
- Implemented real-time inventory management using SignalR and Redis
- Collaborated with frontend team to deliver responsive web applications
- Participated in code reviews and contributed to architectural decisions

## .NET Developer

**Healthcare Systems Corp | Portland, OR**

June 2012 - February 2016 (3 years 9 months)

Developed healthcare management systems using .NET Framework, SQL Server, and WPF. Worked on patient management, billing, and reporting modules ensuring HIPAA compliance.

- Developed patient management system handling 50K+ patient records
- Created automated billing modules reducing manual processing time by 70%
- Implemented secure data access layers ensuring HIPAA compliance
- Built reporting dashboards using SQL Server Reporting Services (SSRS)
- Maintained and enhanced legacy .NET Framework applications
- Collaborated with healthcare professionals to understand business requirements

## EDUCATION

**Bachelor of Science in Computer Science**

University of Washington | Seattle, WA

2008 - 2012

## CERTIFICATIONS

- Microsoft Certified: Azure Solutions Architect Expert (2022)
- Microsoft Certified: .NET Developer Associate (2021)
- AWS Certified Solutions Architect - Associate (2020)
